

MEGATEK

Megatek line of ovens is being studied to **optimize functionality** in everyday kitchen's life: **more cooking cycles** can be performed simultaneously on different products thanks to **Mega's** modularity with superimposable structure. Standard tray slides - factory fitted for 600 x 400 mm. tray size - can easily be replaced to accomodate 1/1 GN tray size by using the additional tray slides kit included in oven's equipment. **Mega** is **performing brilliantly** on fresh and frozen bakery products as well as on gastronomy basic cooking recipes.

MEGA
